

This is dedicated to all single moms....

I dedicate these words to each of you

I thank you for everything you do

Getting up early

Going to bed late

Doing all the things

I know you hate

It's hard being you

Yet you stay true

I appreciate you

I love you too

My heart goes out

To each one of you

Raising boys to be men

Girls to be women

Giving all of your time

Always being kind

Because of your sacrifice

Because you paid the price

I applaud you

And salute you too

No man really knows
What you all go through
No man really knows
What it's like being you
Working every single day
Trying to make a way
Doing the job of two
Because he left it all on you

I commend you
And praise you too
Without you
This world would be through

From the east to the west
Single moms your the best
All over the land
You do it without a man
What more can I say
Single moms have paved the way
I am grateful for you
And thankful too
Single moms may God bless you!!!!
